

# Same Look. Smarter Mount.

A drop-in SMD alternative to your legacy THT indicators. Same appearance, faster assembly.

## Dialight PRISM® SMD Circuit Board Indicators

Dialight's PRISM® Series surface-mount indicators deliver comparable LED positioning and optical performance as traditional through-hole indicators, while enabling modern, automated assembly and simplified production.

### Front Panel Compatibility

Similar PCB-to-LED centerline height: 591/592/593 PRISM Series match 551/553/564 Series dimensions. Little to no front panel redesign required: maintain existing panel cutouts and mechanical fit.

### Why Choose PRISM® ?

- ✓ Single-step reflow process: no manual secondary soldering
- ✓ Compatible with automated pick-and-place assembly
- ✓ Uniform, high-quality illumination comparable to TH
- ✓ Reduced production cost and time
- ✓ RoHS compliant and fully reflow-oven safe

### PRISM® Color Options

Single Color: ●●●●●●●●

Single Color Low Current 2mA: ●●●●●●

Bi-Color: ●●●●●●●●

Tri-Color: ●●●

Custom color combination available for 592 & 593 Series.
